

*"The Last Word in Cranes"™*

**Zenar Corporation congratulates Steel Dynamics, Inc.™ on its Structural Steel and Rail Mill Project in Columbia City, Indiana.**

We are a proud supplier of overhead cranes to this new production facility.

We are a North American manufacturer of overhead cranes and material handling equipment located near Milwaukee, Wisconsin.

Our record proves a reputation for quality, respect for long-term relationships, and a solid history of achievement and innovation. We offer a wide variety of overhead cranes and related equipment ranging from industrial to mill duty. Material handling accessories, devices, and systems, both custom and standard, are available along with control conversions, crane modernization, inspections and field installation. As a result of our vast experience building thousands of crane systems, we have come to realize that no single crane design can address all applications.

With sales offices located in Chicago, Cleveland, Knoxville, Memphis and Milwaukee, Zenar™ is within reach of any customer looking for our high-quality, custom-engineered products. Give us a call at 1-800-321-5884, Ext. 140, if you think we can help you.

Zenar™ is *"The Last Word in Cranes."*™
