ZENAR CORPORATION

COST EFFECTIVE SOLUTIONS FOR OVERHEAD MATERIAL HANDLING

In today's competitive market place, we know we can give you the finest overhead cranes and accessories for your capital expense dollars. Most importantly, our service does not end with the sale, or even after installation. Zenar can provide the technical service and support should the unexpected arise. Zenar's factory-trained service technicians are responsive and qualified to resolve almost any crane-related problem quickly and efficiently.

SERVICE

Zenar can also provide routine maintenance and planned outage trouble-shooting evaluations upon request.

Zenar's trained technicians can advise you on upgrading or rebuilding your present crane system.

Additional Services Include:

- Rebuilding Cranes
- Rebuilding Hoists
- Control Conversions
- Crane Modernizations
- Emergency Breakdown Parts & Service
- Local Service

We offer 24 hour technical support on trouble-shooting electrical and mechanical emergencies.
